SUMMARY

Information Technology student at NJIT with a Game Programming minor and hands-on C, C++, and C# experience modifying commercial game engines. Built a speech-driven AI assistant on a Raspberry Pi using a locally hosted language model. Air Force ROTC cadet seeking a software engineering internship for Summer 2027.

EDUCATION

New Jersey Institute of Technology, Newark, NJ — Sep. 2025 – May 2029

B.S. in Information Technology | Minor in Game Programming

Relevant Coursework: Data Structures, Network Security, Artificial Intelligence, Software Methodology, Database Management, Game Programming

TECHNICAL SKILLS

Languages: Python, Java, C, C++, C#, JavaScript, SQL, HTML/CSS

Tools: Git/GitHub, VS Code, Visual Studio, Unity, Wireshark, Cisco, Ollama

Platforms: Linux (Kali), Windows, Raspberry Pi

PROJECTS

Quake 2 & Quake 4 Engine Modifications | *C, C++, C#, GitHub* — May 2026

- Modified the Quake 2 and Quake 4 game source code in C/C++ to build custom versions of each game as part of the Game Programming courses (IT 201 & IT 266).
- Turned Quake 2 into a medieval-themed simulator and Quake 4 into a custom party-style game.
- Learned engine architecture, large-codebase navigation, and version control with Git/GitHub.

Raspberry Pi AI Voice Assistant | *Linux, Scripting, JavaScript, Ollama* — June 2026

- Built an AI assistant on a Raspberry Pi 4B that takes spoken input and writes responses using a local LLM run through Ollama.
- Wrote the scripts connecting speech input, the language model, and the device hardware end to end.

LEADERSHIP & EXTRACURRICULAR

Air Force ROTC, Det 490, Newark, NJ — Sep. 2025 – Present

Contracted Cadet

- Develop leadership skills in high-pressure environments.
- Practice drill and marching to reinforce attention to detail.
- Meet demanding Air Force physical training standards.
